

FISHING REPORT

Sorry about the delay in posting a new report, the main reason was the fantastic run of good weather we have had over the last couple of months.

The fishing has been great with our best run of SAMSON FISH and COBIA being caught on most trips out, the Samson fish ranged between 6kg and 15kg like the ones pictured above, extremely good fighting fish and after eating them they are now one of my favourite eating fish.

The cobia above weighted just over 35kg, I certainly have not seen one that big, I can tell you that trying to lift this fish in the boat was a frightening experience especially when we were only using spotted mackerel rigs on light line, so well done the guys, they had a great week with cobia, spotted mackerel, Samson fish and snapper amongst there catch. The spotted mackerel came on quickly and were great for a couple of weeks but have now moved on with the odd one being caught but few and far between.

This week has seen the king fish starting to fire out in the deep water, they are a good size around the 5kg to 8kg and another fish that is very nice on the plate.

As you can see from the picture above, we have had some good fishing days. The bottom fishing has also been really good with Bar Cod, perch, Snapper, long fin perch, tusk fish and all the other reef fish being caught when the weather allows us

.We still have weekends and midweek packages available for the remainder of the year, so if you can organise a group of around 8 guys or girls we can get you out there and enjoy some great fishing. If you are only a couple of guys we can fit you on with other people, so just let me know if you would like to come.

If you are after Snapper and pearl perch your peak times are July through to September. If any one forget to get a t-shirt while they were away fishing with us, just let me know and I can send you one.

We have just got our new T-SHIRTS in, they look great, dark blue same as below and come in: small large, XL, xxl. Just \$20 plus \$5 postage, let me know if you would like one.
